- | | |
|------------------------|--------------|
| • Figma, Adobe XD | Good |
| • UI/UX | Amateur |
| • HTML, CSS, Bootstrap | Intermediate |

Others

- | | |
|-------------------|------|
| • Self-learning | Good |
| • Problem solving | Good |
| • Teamwork | Good |
| • Communication | Good |
| • Presenting | Good |

Experienced technologies

- Android development
- Web development with JSP/Servlet and JDBC
- Web development with ASP.NET Core and Entity Framework
- Window Form development
- 2D game development with Unity

Projects

Tom

Side project - Android mobile app
A flashcard simulator application that I made in 2 years with main features are creating and playing with flashcards, En-Vi dictionary and translate with Google Technology

- Framework: Android
- Used language: Kotlin/Java
- Database: SQL (manipulated with Room data object mapping library)

I am responsible for building 95% of this mobile app
